

<p style="text-align: center;">INSTRUCTIONS <i>for</i> Housing Acquisition</p>
--

A. NEED FOR ACTIVITY

1. Please check only one box to indicate the proposed housing acquisition activity that CDBG funds are requested to fund. If there are more than one type of housing acquisition activity then you will need to complete a separate set of activity forms for each activity. (Please see Appendix E of the NOFA for detailed description and limitations of these eligible uses.)

Note: Housing Acquisition/Housing Rehabilitation Combination Program.

Applicants have the option to apply for a Housing Acquisition/Housing Rehabilitation Combination Program. This separate category:

- ❖ allows the grantee to use one combined CDBG budget amount to be used for both housing rehabilitation and/or housing acquisition; and
- ❖ Can only be used for jurisdiction-wide programs (no target areas are allowed).

When using this option, grantees must also complete the Housing Rehabilitation Activity Forms.

2. **Project or Program Description.** Please provide a brief narrative description of the proposed project being funded or program to be operated. Give information about:
 - the use of CDBG funds,
 - what the total project will cost,
 - the number of units, and
 - a breakdown of the projected TIG and LTIG beneficiaries.

If you are proposing a **combination of activities or uses**:

- explain all aspects of these combinations, and
- break out costs where appropriate.

If the proposed CDBG activity is **part of a larger project**:

- describe the whole project, and
- describe how the CDBG-funded portion fits into that project.

Note: Remember that occupancy by the TIG/LTIG beneficiaries must occur by the CDBG contract expiration date.

INSTRUCTIONS
for
Housing Acquisition

EXAMPLES

Single-Family Project:

The City of XYZ will use the \$400,000 to assist 15 homebuyers to purchase existing homes. It is anticipated that 12 of the homebuyers will be TIG and the remaining 3 will be LTIG households. We anticipate that the average purchase price will be \$110,000 plus closing costs of \$3,000; the average CDBG loan will be \$25,000; the average downpayment will be \$3,500; and the average bank loan will be \$81,500. The CDBG funds will be used in conjunction with bank loans obtained individually by the homebuyers. A letter of interest from MNO Bank is attached to document the bank funds as leverage.

Multi-Family Project:

The County of PQR will use the \$500,000 to assist the NP Housing Development Corporation (NPHDC) to purchase a rental housing project consisting of 50 units, located in the rural Vista community in the Northwest area of the County. These units are currently occupied by 10 LTIG and 40 TIG households, and we expect this mix to be maintained. The balance of funding for this \$2,000,000 project will be provided by a CHFA loan in the amount of \$1,400,000 and a FHLB Affordable Housing Program grant of \$100,000. No rehabilitation funds are needed, as the project currently meets all code requirements.

3. Please indicated whether you qualify for **AND** would like to receive State Objective points for Worst Case Housing Needs and/or Farm worker Housing Proposals.

Description of State Objectives:

• **Worst Case Housing Needs:**

Proposals that will facilitate the construction, acquisition, or rehabilitation of permanent housing projects that meet all of the following requirements:

1. Project must include rental housing, and
2. (of the rental housing), must target at least 25 percent of the program beneficiaries to be LTIG households who do **not** receive Federal housing assistance, and
3. must reduce these beneficiaries' rent and utility costs to below 50 percent of their gross incomes **or** benefit persons who live in severely substandard housing.

• **Farm Worker Housing/Health Services Proposals:**

Proposals that facilitate the construction of permanent or migrant housing for farm workers or the provision of health services in combination with farm worker housing.

4. Please check the box for the anticipated level of environmental clearance under the National Environmental Policy Act (NEPA).

Notes: If you already have a NEPA environmental review record (ERR) for your proposed project that was prepared by or for another agency (e.g., USDA-RD), that ERR may or may not satisfy environmental review requirements for HUD purposes for this grant application. Please contact your CDBG representative for further guidance on avoiding ERR duplication.

Scheduling and budgeting should allow for sufficient time and funds to complete environmental clearances prior to commencement of activities. New Construction frequently requires a higher level of NEPA environmental clearance than other types of community development activities.

5. Please enter the percentage of all renter households who are paying more than 25% of their income for housing.

Notes: You **must** use 2000 Census data for this number. Overpayment data are available in the 2000 Census Summary File 3, Table DP-4 (see sample of this table in Appendix H). If you are unable to obtain this Table, please ask your CDBG Representative for a copy.

Remember to attach the 2000 Census table **and** show your calculations.

6. Please enter the percentage of total households who are overcrowded.

Notes: Overcrowding means 1.01 or more persons per room.

You **must** use 2000 Census data for this number. Overcrowding data are available in the 2000 Census Summary File 3, Table DP-4 (see sample of this table in Appendix H). If you are unable to obtain this Table, please ask your CDBG Representative for a copy.

Remember to attach the 2000 Census table **and** show your calculations.

<p style="text-align: center;">INSTRUCTIONS <i>for</i> Housing Acquisition</p>

7. **Need for New Units.** Recent surveys (less than 5 years) or 2000 Census data are acceptable documentation. The data requested is for the entire jurisdiction.

Exception: For this activity, CDBG will allow the designation of a Target Area only for County applicants where the proposed project is in a geographically isolated area of the county.

a. Please:

- enter the percent(s) of **owner-occupied** units that are vacant in the entire jurisdiction, or a geographically isolated area of the county
- check the appropriate box that specifies the data source (2000 Census or local survey), and
- attach a copy of the Census table with your calculations and/or the results of the local survey (as applicable).

b. Please

- enter the percent(s) of **rental** units that are vacant in the entire jurisdiction, or a geographically isolated area of the county.
- check the appropriate box that specifies the data source (2000 Census or local survey), and
- attach a copy of the Census table with your calculations and/or the results of the local survey (as applicable).

Notes: If you use 2000 Census data, refer to the Census Summary File 1, Table DP-1(see sample of this table in Appendix H) for the jurisdiction-wide vacancy rates by tenure type. If you wish to use Census data but are unable to obtain the required Table, please ask your CDBG Representative for a copy.

If you use local survey data, be sure to include a copy of the results of that survey with pertinent information highlighted.

8. Please state whether there is a project-specific waiting list or market study. If yes, be sure to attach a copy.

<p style="text-align: center;">INSTRUCTIONS <i>for</i> Housing Acquisition</p>

9. Supplemental Information: If the Census data for Overpayment, Overcrowding, and/or Homeownership Rate do not accurately depict your community's need in those categories, please:

1. Check which category(ies) are being rebutted,

☐ Worsened Overpayment: Information rebutting or not captured in the 2000 Census.

☐ Homeownership Rate: Information rebutting or not captured in the 2000 Census.

☐ Housing Overcrowding: Information rebutting or not captured in the 2000 Census.

- describe your community's worsened needs in those categories,
- attach third-party documentation, if available, showing your community's worsened needs in those categories,
- and identify the page number in the application where the third-party documentation can be found .

Notes: Such supplemental information **may not** be older than **five years** from this year's application filing date and **must be specific to the community**.

Vacancy rate data cannot be supplemented, as recent surveys are already allowed as noted above under "Need for New Units."

B. TARGETED INCOME GROUP (TIG) BENEFIT

1. Enter the percentage of total project beneficiaries who would be TIG households. Homebuyer assistance programs are direct benefit and as such must be income restricted and 100% TIG.
2. If your answer to question #1 is **51% or greater**, enter percentage and go to Section C.
If your answer to question #1 is **Between 20% and 50%**, answer question 3 and 4.a-d below. If your answer to question #1 is **less than 20%**, stop here. Your project does not meet the TIG National Objective and is **ineligible**.
3. If you propose to assist a senior housing project, stop here. Your project must be at least 51% or more TIG, if it does not meet the minimum TIG National Objective, then it is **ineligible**.
4. If the answer to question #3 was **No** and the project is between 20% AND 50% TIG, complete question 4. a-d to determine if the percentage of CDBG dollars, relative to total activity costs, equal or are less than the percentage of TIG households in the project.

NOTE: Compare the percent of benefit to TIG households with the percent of CDBG dollars relative to the total development cost (TDC). For example, a potential \$1,000,000 project may be designed to set aside 40 percent of the finished project units for TIG households. If the applicant is requesting \$400,000 of CDBG funds, which is 40 percent of the TDC, then the application meets the test that the percent benefit to TIG households is equal to or greater than the percent of TDC that CDBG dollars represent.

C. EXPENDITURE MILESTONE CHART FOR ACQUISITION (PROJECTS ONLY)

Note: The recent regulation change should facilitate use of CDBG funds on housing acquisition projects. The regulations now allow applicants to request funds up to \$1,500,000 for a single project or for multiple projects. This would amount to \$500,000 per year for three years of funding. The non-phasing requirement is no longer in place.

At this point in the application, the applicant must give a firm timeline for when the bulk of CDBG funds will be used for the proposed project. This chart is divided out into quarters but applicants only need to write in the amount of funds they anticipate using in each FISCAL year (July 1st to June 30th). On the activities portion of the chart, show only activity delivery items; do not show general administration funds. List only the **MAJOR** items involved in completing the project (engineering/architectural completed, construction of facility).

<p style="text-align: center;">INSTRUCTIONS <i>for</i> Housing Acquisition</p>
--

For example, during the first 12 months of the grant, final plans and specifications will be completed and paid for with \$250,000 of CDBG funds. In the second year, the labor standards monitor is hired and the project is put out to bid, \$100,000. In year three, the project is in construction \$500,000 and, in year four, the project reaches the completion stage, \$500,000.

Complete the *Expenditure Milestone Chart* to best illustrate the major activities that will be funded by CDBG and other funding agencies during the timeline of the grant activity and indicate when funds will be expended for each major activity.

Applicants must be careful and **not** to spend large amounts of activity funds up-front because if the project is not completed and TIG benefit is not achieved, then **all** activity dollars must be returned.

D. SOURCES AND USES FOR (PROJECTS ONLY)

1. Sources and Uses Form.

Sources. The major funding sources are printed on the form.

The amounts and sources for local and private funding contributions should match the Information provided on the charts for “other Funding Sources,” pages 43-46. In addition, make entries here for any State, Federal, or other sources, that you will be using to finance the **entire project.**

For “other State” funds, if any are from another HCD program, please identify that program on this chart.

INSTRUCTIONS
for
Housing Acquisition

Uses. Identify the cost categories applicable to your proposed project and enter the amount you plan to use. Allocate the amounts across the table to the funds you expect to receive from all the sources listed. This chart should include costs for the entire project (not just the CDBG portion). Your cost estimates can assist you in calculating these entries.

- For the Construction lines, include a factor for Davis-Bacon wages when applicable. All construction costs should include a contingency established in the line item.
- The equipment category could include items such as outdoor playground equipment.
- Examples of fees that should be listed are commissions to brokers or closing costs for the acquisition of land or a building.
- General administration costs should include staff time for grant administration, such as clearing the grant agreement special conditions and grant reporting.
- Activity delivery costs should include the costs which the State CDBG Program would consider activity delivery.

Please double-check the totals, in all rows and columns, for accuracy.

E. PROGRAM READINESS.

Of the 150 points available for capacity, your application may be awarded up to 50 points if you complete and document actions that make the proposed project ready to proceed. These actions must be directly related to the activity. They may include the completion of the special conditions and environmental review requirements, procuring an operator or sub-recipient, and obtaining a loan commitment letter from a local bank.

Site Control. We have included a site control section in Program Readiness even though it will have limited use under the housing acquisition activity category. An example where site control does become relevant would be: Where a City/County or their RDA have purchased a housing project or individual housing units and have proof of site ownership which can be submitted for readiness points under site control. **Most Housing Acquisition applications will not use the Site Control section in the readiness chart.**

A partial list of Examples of such actions and the documentation to be submitted for each are in the Program Readiness Chart. (This Chart is not a complete list of possible readiness actions).
